Since 2010, we have been manufacturing approximately 10,000 tons of biscuits and rusk monthly for various MNCs across India. With years of manufacturing expertise, we decided to pursue a bigger dream, Teakay Cookies. One big dream, two partners, and the perfect combination of flour and sugar!

Teakay Cookies was co-founded by Sanjeev Agrawal (Director), Bharat Kejriwal (Director) & Prateek Agrawal (Managing Director), the three visionaries who shared the passion for creating the perfect cookie. But perfection didn't come easy. After countless trials, wasted dough, and recipes that didn't meet their standards, they turned to the most important judges for their "cookie quest", the people. Gathering feedback and continuously testing recipes became a cornerstone of the Teakay process. Even today it helps us craft cookies that balance taste, texture, and affordability. They remained resilient until they created the world's best cookie & biscuit company at an affordable price.

Founded in Varanasi, the oldest city in India, Teakay Cookies is rooted in tradition understanding the importance of special moments. Our world-class manufacturing facility combines automated technology with our signature recipes to create cookies that deliver the perfect crunch every time.

At Teakay, we believe that cookies are more than just a treat, they create moments. That's why we are passionate about every step of our process, from sourcing ingredients to perfecting recipes. We settle for nothing less than cookie perfection!

Whenever a moment matters to you, make it even sweeter with Teakay Cookies.
